Professional Summary

- An analytical Healthcare Professional and qualitative policy researcher, I bring a unique blend of clinical training (BAMS), structural knowledge of Indian Polity, and an insightful socio-anthropological lens. Raised in rural Jammu & Kashmir, I offer firsthand, authentic perspective into the behavioral economics and socio-cultural fabrics governing community life. As a doctor, I possess a proven capacity to translate raw, decentralized field insights into structured policy briefs and actionable blueprints aligned with the vision of a Viksit Bharat. My background in Ayurveda gives me a unique, holistic paradigm that views public health indicators and structural bottlenecks as interconnected ecosystems rather than isolated variables. Proving my exceptional learning agility and resilience, I completely self-taught the reading and writing of script-level Hindi to clear my medical degree, pivoting from my native Urdu-Kashmiri background. I am seeking to leverage my clinical diagnostic skills and ground-level empathy at NITI Aayog to humanize policy formulation, integrate marginalized perspectives into national development frameworks, and transform public machinery into empathetic infrastructure that drives sustainable human transformation.

CLINICAL & COMMUNITY EVALUATION EXPERIENCE

- **Medical Officer**, American Oncology Institute, Jammu. Oct 2023 – Apr 2025
 - Managed daily inpatient and outpatient clinical operations across secondary and tertiary institutions; balanced clinical precision with evidence-based patient-pathway design under high-velocity settings.
 - Navigated complex patient interactions, translating medical datasets into culturally adaptive preventative health strategies aligned with national health goals.
 - Leveraged institutional clinical insights to launch community health drives in Banihal; conducted qualitative counselling targeting maternal nutrition, breast cancer awareness, and menstrual hygiene, optimising healthcare-seeking behaviour.
- **Medical Officer**, JK Medicity, Jammu. Oct 2020 – Jun 2022
 - Managed clinical operations across secondary and tertiary healthcare settings; applied evidence-based patient-pathway frameworks in high-volume outpatient & inpatient workflows.
 - Delivered socio-behavioural public health interventions; translated technical clinical data into accessible, culturally adaptive preventive strategies.
- **Volunteer Doctor**, Primary Health Centre (PHC), Mangit, J&K. Apr 2019 – Jul 2019
 - Gained raw exposure to infrastructural bottlenecks, supply-chain constraints, and resource-allocation challenges of rural health systems.
 - Acted as a trusted intermediary between rural communities and institutional delivery systems; decoded spatial and socio-behavioural barriers to build institutional trust and compliance.
- **Rotatory Intern**, Govt. District Hospital (Gandhi Nagar) & Govt. Ayurvedic Hospital, Jammu. 2018 – 2019
 - Immersed in a high-volume allopathic district facility; gained operational insights into public health delivery, emergency triage optimisation, and administrative complexities of state-run hospitals.
 - Managed specialised clinical protocols under the Ayurvedic system; deepened understanding of systemic lifestyle disorders, chronic metabolic conditions, and preventive strategies.
 - Developed a macroeconomic view of public health, observing how traditional preventive models and modern clinical infrastructure complement each other to optimise grassroots health metrics.

Education

- **Bachelor of Ayurvedic Medicine & Surgery (BAMS)** Graduation: 2019
Jammu Institute of Ayurveda and Research, Nardani, Jammu | Jammu & Kashmir
Core focus: Preventative healthcare, lifestyle & metabolic disorders, holistic well-being ecosystems.

CORE COMPETENCIES FOR POLICY ADVOCACY

Contextual Authority	■	Born and raised in Banihal; intuitive grasp of rural development realities, village-level institutions, and border administrative landscapes critical to regional balance.
Policy Synthesis	■	Proficient in distilling socio-cultural data, historical context, and policy bottlenecks into crisp, persuasive policy briefs and white papers.
Stakeholder Agility	■	Cross-communicates seamlessly between grassroots rural expectations and institutional administrative goals; bridges decentralized realities with nation-building priorities.
Social Anthropology	■	Reflective study of kinship, space, gender dynamics, and traditional socio-cultural structures of rural and tribal societies across India.
Indian Polity	■	Decentralized administrative machineries, Center–State dynamics, 73rd/74th Amendments, cooperative federalism, and rural development frameworks.
Literature & Culture	■	Avid reader and writer; focused on regional histories, classical poetry, and documenting the lived human stories behind changing rural landscapes.

LANGUAGES & KEY SKILLS

Languages	■	Kashmiri (Native), Urdu (Fluent), Hindi (Fluent), English (Professional/Academic). <i>Classical script literacy:</i> Sanskrit & Arabic (reading proficiency).
Policy & Writing	■	Structured policy writing & research, qualitative Analysis, analytical & report writing.
Communication	■	Public health communication, community engagement & stakeholder management.
Clinical	■	Patient management, preventive healthcare, community health interventions.
Technology	■	MS Word, MS PowerPoint.
